ADVICES FOR USE AND DURATION LAUNDRY CONCENTRATED PERFUME

For 10 ml single dose:

- In the washing machine, pour all the contents into the softener tray.
- By hand: Dissolve all the contents in 5 liters of water and immerse the garments well washed and rinsed. Attention: If poured can damage the surfaces, in such a case clean immediately.

For 200 ml capacity:

- In the washing machine: From 4 to 6 pressures on the dispenser inside the softener tray depending on the intensity of the scent you want to get.
- By hand: 4 to 6 pressures on the dispenser in 5 liters of water and immerse the garments well washed and rinsed. Warning: if poured can damage surfaces, in such a case clean immediately.

For a proper use of the products, carefully follow the instructions for use on the package.
