

MILANO

LA FASHIONISTA

Aristocratic, willful, multicultural...

Milan is a city that reveals itself slowly. Like a lady with a discreet attractiveness, who walks shyly among the courtyards of the buildings and the respectable tailor's shops.

Milan is complex, multifaceted and an artist of multifaceted genius, with a constantly changing history. So the citrusy accord wants to underline that apparently icy aura which can be seen behind its mantle of light grey fog. Slowly it reveals itself, showing its composed elegance in the simplicity of a white Rose, an Amaryllis and a candid Camellia. The twist of Amber and Woods evokes the clean lines of design, modern muscs enhance the fashionista soul that makes it, today, the heart of world fashion...
